

ICPI Level I Concrete Paver Installer Certification Program

10 Reasons for ICPI Level I Concrete Paver Installer Certification

1. **Meet industry guidelines**-Learn how to meet or exceed industry established guidelines for paver installers.
2. **Reduce costs**-What you learn will help you reduce or eliminate costly call backs.
3. **National promotion**-ICPI promotes certified paver installers in its literature, website and videos.
4. **Supplier promotion**-Many ICPI manufacturer members promote certification to the general public.
5. **Meet customer expectations**-Today's consumers are more sophisticated and demanding. They expect trades people, including interlocking pavement installers, to have trade certification.
6. **Meet designer/specifier expectations**-Design professionals specify installation by ICPI Level I Certified Concrete Paver Installers.
7. **Benefit your bottom line**-Professional instructors will show you how to increase your bottom line through greater efficiency.
8. **Evaluation process**-ICPI developed guidelines will show you how to increase your bottom line through greater efficiency.
9. **Dispute resolution**-Adherence to ICPI guidelines means you have the weight of the industry on your side in the event of a dispute.
10. **Justify your price** Being able to demonstrate to your customers that you are installing interlocking concrete pavements consistent with industry developed guidelines can help you support your pricing and explain why it might be higher than others not following those guidelines.

The path to a more prosperous future

Time: **8 AM—5 PM both days**

Sponsor: **ICPI Central Florida Chapter**

Location: **Marriott Courtyard**

@ The Marriott Village

8623 Vineland Avenue

Orlando, FL 32821

Ph: (407) 938-9001

About the Program

The two-day classroom course is designed to enhance the knowledge of individuals involved in the construction of interlocking concrete pavements. The following topics are addressed in the curriculum:

- Material and labor estimating
- Job planning and layout
- Soil classification and compaction
- Soil compaction
- Bedding and joint sand
- Paver selection and installation
- Use of labor-saving specialty tools
- Edge restraints
- Base material selection and compaction
- Contract basics
- Safety
- Maintenance and Management
- Specialty Applications
- Estimating and job costing

Why Should You Attend?

Knowledge-Industry professionals share knowledge of industry guidelines, practices and advances applicable to the construction of interlocking concrete pavers.

Recognition-Installers and owners will receive Level I Concrete Paver Installer Certificates and non-installers such as sales staff, manufacturer and dealers reps will receive Level I Graduate Certificates.

Promotion-Paver installer program training and certification can be a powerful marketing tool for your business by further establishing your credibility as a knowledgeable installer, contractor or industry professional.

On-going support-ICPI reinforces your knowledge by making available technical literature, guide specifications, marketing support, website listings, press releases and advanced level certification programs.

Who should attend?

The ICPI Level I Certified Concrete Paver Installer Program has been designed for all companies and individuals involved in the residential and commercial installation of interlocking concrete pavements, including:

- Company owners and principals
- Job superintendents
- Forepersons and supervisors
- Crew leaders
- Crew members (with one year minimum experience)

Why a certification program?

Several thousand companies throughout North America engage in the manufacture of and/or installation of interlocking concrete pavements. Your company may be one of them. These companies

work with landscaping, segmental retaining walls, and concrete pavers. Their backgrounds represent a wide range of technical, business and marketing skills. To focus this diversity of experiences, the ICPI Level I Certified Concrete Paver Installer Program imparts the requisite knowledge, experience and industry guidelines required to build pavements using concrete pavers.

Disclaimer and Understanding

The Interlocking Concrete Pavement Institute ("ICPI") Level I Concrete Paver Installer Certification Program is intended to communicate industry guidelines to paver installers on estimating, planning and executing residential and commercial projects and to educate individuals in applicable construction and general business practices.

ICPI hereby disclaims any and all liability for any claims, actions, causes of action, damages or losses to persons or property, including direct, indirect, incidental, consequential or punitive damages, liabilities, judgments, attorneys fees and costs, directly or indirectly arising out of or related to the use of services of a certified concrete paver installer, the performance or nonperformance of work or services by a certified concrete paver installer, the quality or performance of materials used in connection with the work, or the outcome of any interlocking concrete pavement jobs or projects.

ICPI further disclaims any and all warranties of any kind, either express or implied, including but not limited to implied warranties of merchantability or fitness for a particular purpose with respect to the quality or fitness of the interlocking concrete paver materials purchased by the user, or with respect to the qualifications, abilities or quality of work performed by the selected certified concrete paver installer.
