“Economic Outlook for The Paver Industry in Florida”

Please join us for a FREE DINNER and presentation, panel discussion, and audience question/answer session about the construction economy and the future of our industry!

Panelist

Bud Coleman/Executive Vice President of Roebuck Consulting Group (34 years experience in construction materials and transportation) will present the current demographic data and spending activity in the Construction Industry and will propose what can be expected over the next three years.

Tim Kuebler/Vice President of Cement & Aggregates for Titan America (22 years experience in the Concrete Products Industry) will present current consumption data and will propose the future demand expectations on cement and aggregates and its impact on the paver industry.

Geoff Bond/CEO of Flagstone Pavers, Inc. (11 years experience in the Paver Industry) will present Paver sales data (From ICPI), what is expected for the near future, and will discuss the challenges ahead for product manufacturing side of the industry.

Thursday, February 5, 2009
